METHOD FOR ANALYZING
ORGANELLE-LOCALIZED PROTEIN
AND MATERIAL FOR ANALYSIS : **Mail Stop: AMENDMENT**

SUPPLEMENTAL RESPONSE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Attached herewith are a paper copy and a computer readable form (CFR) of a substitute Sequence Listing for this application. They were inadvertently omitted from the response filed November 15, 2007. Amendments directing its entry into the specification can be found in the November 15, 2007 response. The content of the paper and computer readable copies are the same and no new matter has been added.

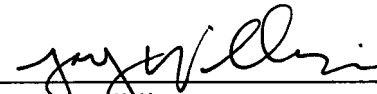

The substitute Sequence Listing contains new sequence identifiers for the amino acid and nucleic acid sequences in Figure 2. The substitute Sequence Listing has been run through the PTO Checker software (version 4.4.0) and no errors were found.

In view of the foregoing, it is believed that the application complies with the Sequence Rules under 37 C.F.R. § 1.821-1.825. Favorable action on the merits is respectfully requested.

Respectfully submitted,

Yoshio UMEZAWA et al.
